

## Knitting Instructions Month 2

Row	Side	Instructions	Notes
Enjoy your new colors! Continue pattern as established in month one by knitting the following 3 design elements at the same time.			
Stripes		1. Change colors on RS rows per table to the right, using color change instructions for the first 2 rows each time.	
Showy Lines		2. Set up a new Showy Line on WS rows whenever there are 14 sts remaining after the purl of last Showy Decrease. The pattern for these 14 sts is the same as row 28 in the table on the prior page.	
Increases in sections		3. A 'section' is defined as the garter sts between Showy Lines. When there are 20 sets in the Showy line to the left of a section, increase one with a k1f&b in the stitch prior to Showy Decrease as worked in Row 45. Place a removable marker next to each st to help track increases in each section (see <i>note to the right</i> ).	
<i>One more month!</i>
